Takahito Yamanashi
Mayor of
Hayama Town

Message from the Mayor

Hayama is about fifty kilometers south of Tokyo and located at the entrance to Miura Peninsula. Hayama is blessed with green mountains and a beautiful four-kilometer coastline running north to south which has reefs and sandy beaches. The beaches, facing west, have a splendid view of Mt. Fuji. Hayama is widely known as a resort area, and as the town of the Imperial Villa. The mild climate on the land due to the mountains blocking strong winds from north and south, calm beaches, and winds blowing through over the sea convince you that Hayama is the birthplace of yachting. The sailing competition of the 2020 Tokyo Olympic Games will take place here on the sea.

The beautiful nature which can enrich the townspeople's bodies and spirits, and their warm hearts are Hayama's treasures. I hope a lot of people will come to Hayama from home and abroad and come in contact with such wonderful nature and people's warm hearts. I am looking forward to your visit.
